Midas PRO 1/2/2C

Version G3.4.6 rel-9 (22 Aug 2019)

New Features

- New Effect: TC Reverb: VSS4
- Presets: Save and overwrite dialogue pop-up
- Presets: Insert patching can be stored and loaded separate to whole system
- Tap Tempo: Pop-up dialogue to type in speed and rate
- Preferences: 'Output meters pre' option - distinct from Input meters pre (previous global)

Fixes

- Scopes: In automation, prevent potential noise when scoping out mic gain section for channels with +48 V turned on
- FX: Fixed issue where M350 reverb recalls settings incorrectly in automation
- Solo/Monitor: Fixed - Stereo Aux Sends contribution to monitor bus no longer sums to mono
- FX: DEQ frequency value can go out of range when rapidly and significantly changed back and forth
